Rocky coastlines, mangroves, swamps, and tropical rainforests abound and offer a feast for photographers. Here, meet members of the local **Emberá** community.

Le Dumont-d'Urville then continues to Fuerte Amador for an exploration of **Panama City's Old Quarter** and of the region's fantastic biodiversity at the superb Frank Gehry-designed **Biomuseo**.

Here, you will also visit the Punta Culebra Nature Center at the **Smithsonian Tropical Research Institute (STRI)**

, a fascinating, open-air museum dedicated to marine science and conservation. On a specially arranged tour guided by Smithsonian staff, hear about the latest studies, observe marine species up close, and explore the unique flora and fauna of the tropical dry forest.

Your final call will be in **Quepos, Costa Rica**, gateway to the spectacular **Manuel Antonio National Park**, where you will encounter myriad tropical flora and fantastic fauna, including sloths, the noisy howler monkey, the white-faced capuchin, and the tiny squirrel monkey. The combination of forest and ocean also provides a special opportunity to observe both terrestrial and sea birds—toucans, pelicans, hummingbirds, terns, and more.

The encounters with the wildlife described above illustrate possible experiences only and cannot be guaranteed.
